MUTANT LEAGUE FOOTBALL

CART SIZE	SYSTEM	AVAILABLE
8 MEG	GENESIS	MAY

What do you get when you cross the fun of Madden Football with the no-holds barred action of robots and mutants? You get Mutant League Football! With plays and controls very similar to EA's earlier efforts (but not related to the EA sports games), Mutant League Football should appeal to those looking for a bit more action in their sports!

Begin by selecting from sixteen tough teams, each with their individual attributes. Names include Sixty Whiners, War Slammers and the Darkstar Dragons. The teams also have star players like Elvis, Snake and Mauler that have special skills above the rest of the players.

If you haven't had enough fun choosing your team, then you can pick from nineteen stadiums complete with hazards like pitfalls and land mines buried within. Choose wisely because the enemy can take advantage of these situations.

Mutant League Football is a very violent game, but there is the option of toning it down a bit. At the bloodiest level, Annihilation, your players can get smashed by others with a full complement of blood accompanying the action!

Time to play! Choose plays just like the Madden games and head onto the field for a real treat. Players can dive, punch, jump and kick opponents to reach the goal for the

touchdown! Beware of trick plays that can turn an entire team against the opposing coach! Although the setting is very futuristic, the game plays just like your typical football game. But if it's a change you're looking for, then MLF is the choice!

The action and color of big league baseball. Nobody can call it like Al Michaels. No game captures it like *HardBall III*™.

HardBall III for the Sega® Genesis® maintains its place in the line-up as the #1 selling baseball title of all-time. With new features that'll send every other game back to the minors.

You get the best power in the league: 16 meg ROM with 1/4 meg RAM. 26 authentic big league ballparks. The real 162 game season, including the all-star game and the series. The ability to create and edit your own teams and team logos—even to save games and seasons. Your own "home run derby." Pro caliber "team effort" defense. Accurate stats that are updated and stored for the entire year. VCR-like instant replays that can be saved to your personal highlight reel.

every detail.

BILL WALSH COLLEGE FOOTBALL

CART SIZE SYSTEM AVAILABLE

8 MEG GENESIS JULY

For those who have been waiting for a good college football game, look no further! College Football from Electronic Arts takes the college level teams and stars them in their very own game.

Looking and playing a lot like The Madden Series, College Football puts the 48 best college football teams under your control.

A couple of options allow the

game to be tailored to your individual preferences. Modify the length of each quarter to play short games, the type of field you wish to play on, the weather conditions, and even the perspective to a home or visitor view!

Begin the game with the symbolic flip of the coin then let the games begin! The view switches to a vertically scrolling playing field for all

kick-offs and run-backs. Regular play involves picking plays and then executing them on the play field. The control scheme is very easy to use with simple joystick movements maneuvering the players on screen. For those really cool interceptions and touchdown plays, there is an instant replay feature with VCR type controls to frame advance, fast forward, or just replay the event again.

The play book is very expansive and occupies the entire screen. Eight plays are shown at a time with more easily accessible by scrolling the pages. Execute those passing or

running plays with precision but avoid getting intercepted. Practice the spin technique to break away from possible tackles and other embarrassing moments.

A good college football game was long overdue and EA jumped on the opportunity! With one or two player capability, plenty of action, and tons of teams to use, you won't be disappointed with College Football.
